

NATIONWIDE EDUCATIONAL PROTEST DAY

WE demand

from political decision-makers at
both federal and state level

1

Make schools **FUTURE-PROOF** and **INCLUSIVE**

Now is the time for social and climate-just education that is shaped by pre-school and school children!

2

TRAINING OFFENSIVE for teachers and educators

By 2035, there will be a shortage of 160,000 teachers. Already there is a shortage of hundreds of thousands of day-care places and over 300,000 kindergarten teachers needed to provide good care.

3

SPECIAL EDUCATION FUND and **adequate funding**

50,000 young people leave school without a diploma every year

4

A real **EDUCATION SUMMIT** at eye-level

To solve the education crisis, you need to involve the people who are in daily contact with day-care centres and schools.

Get involved!
